Dr. Patrick J. Culligan, MD, is a specialist in the surgical and non-surgical management of female pelvic floor disorders and urogynecologic conditions. Board certified in obstetrics and gynecology, Dr. Culligan brings particular expertise in reconstructive pelvic surgery, advanced minimally invasive surgical techniques, and robotic-assisted laparoscopic surgery. Dr. Culligan was one of the first urogynecologists in the U.S. to regularly perform the sacrocolpopexy operation laparoscopically. He also performs robotic-assisted prolapse repair and vaginal/pelvic mesh removal. Among the conditions he treats are:

- urinary incontinence
- cystocele
- uterine and other pelvic organ prolapse
- rectocele
- vaginal vault prolapse
- vaginal vault prolapse

Dr. Culligan’s research interests focus on minimally invasive surgical techniques for the correction of prolapse and incontinence. He has published over 50 peer-reviewed manuscripts and was selected by the prestigious journal Obstetrics & Gynecology to author a peer-reviewed manuscript entitled “Non-Surgical Management of Pelvic Organ Prolapse,” which has since become required reading for all Board certified OB/Gyn doctors in the U.S.

Dr. Culligan joins Weill Cornell from the Atlantic Health System, where he founded the Division of Urogynecology and Reconstructive Pelvic Surgery and established a Board-approved fellowship program.
