

The Department of Cardiothoracic Surgery

is pleased to welcome

T. Sloane Guy, MD, MBA

as

Director, Robotic Cardiac Surgery Program
NewYork-Presbyterian/Weill Cornell Medical Center

Associate Professor of Cardiothoracic Surgery
Weill Cornell Medicine

Providing expertise in totally robotic endoscopic cardiac surgery
for a wide array of heart conditions

Practice Location

Cardiothoracic Surgery
NewYork-Presbyterian/
Weill Cornell Medical Center
525 East 68th Street, M-404
New York, NY 10065

Dr. T. Sloane Guy brings extensive training and expertise in the realm of robotic surgery to his role as Director of the new Robotic Cardiac Surgery Program at NewYork-Presbyterian/Weill Cornell. Dr. Guy earned an MBA in Healthcare Administration from the Wharton School of Business and his MD from the University of Pennsylvania School of Medicine. He then completed his general surgery internship at Walter Reed Army Medical Center, returning to Penn for his general surgery residency, and cardiothoracic surgery research and clinical fellowships.

Dr. Guy served as an active-duty U.S. Army surgeon for nine years in Iraq and Afghanistan followed by two years as a cardiothoracic surgeon with Walter Reed Army Hospital. He was then assigned to the San Francisco Veterans Affairs Medical Center, where he developed one of only two robotic and minimally invasive cardiac programs in the VA medical system at the time. Prior to joining Weill Cornell, Dr. Guy served as Chief of Cardiothoracic Surgery and Chief of Robotic Surgery at Temple University. At Weill Cornell, Dr. Guy leads a clinical team with expertise in performing a wide range of totally robotic endoscopic cardiac surgical procedures, including:

- mitral valve repair or replacement
- atrial septal defect closure
- tricuspid valve repair
- MAZE ablation for atrial fibrillation
- septal myectomy for hypertrophic cardiomyopathy
- redo cardiac surgery
- atrial myxoma resection
- coronary bypass surgery
