

# Acute Trauma and Surgical Critical Care

# Providing the Highest Quality of Care in Critical Care and Complex Cases 24/7/365

The Trauma Center at NewYork-Presbyterian Queens has been designated a Level I Trauma Center by the American College of Surgeons for our ability to provide the highest quality of care, especially in critical and complex cases.

As a premier provider in the borough of Queens, the Trauma Center is staffed around-the-clock by full-time, senior level surgeons that are able to respond to any emergency call.

Patients are seen by a team of multidisciplinary specialists comprised of:

- Trauma surgeons
- Trauma nurses
- Neurosurgeons
- Orthopedic surgeons
- Plastic surgeons
- Spine specialists
- Anesthesiologists
- Radiologists

We work with the most up-to-date, highly sophisticated, emergency surgical and diagnostic technology. Our trauma team provides specialized care and multidisciplinary treatment for patients suffering from major trauma, including:

- Around-the-clock critical care 24/7/365
- The use of advanced monitoring and diagnostic equipment that enables the performance of bedside procedures in critically ill patients
- The evaluation and treatment for a full range of general surgery conditions

Our surgeons and staff recognize that patients and their families, particularly during times of crisis, need and deserve:

- Compassion and understanding
- Sensitivity to their concerns for their loved ones
- Ongoing communication and dialogue

To best serve our patients, we maintain an environment of open dialogue so that patients and their loved ones participate in shared decision-making whenever possible.

**For more information, or to schedule an appointment, contact the Department of Surgery at 718-445-0220.**
