

Excavation, Foundation, Site Utility Work Continues

We continue work on excavation and foundations and are also doing site utility work (on Sixth Street only).

Work Hours

Current construction work hours are Monday through Friday, from 7:00 a.m. until 6:00 p.m.

To maintain our schedule, work will be done between 9 a.m. and 5 p.m. on *occasional Saturdays*, but only when there is a need to make up for delays due to weather or other unforeseen circumstances. There will be no trucking, concrete pours or other noisy work on Saturdays. We will notify all on our email list (those receiving this newsletter via email) when work is scheduled on Saturdays or early deliveries are scheduled on weekdays.

Some equipment deliveries may occur on off hours and notices of both Saturday work and early deliveries will continue to be sent in advance.

Upcoming Work

The construction schedule for the next four weeks, **May 15 through June 16** follows.

Cast-in-place concrete fire and storm tanks and north west foundation walls
