How to Follow Your Fluid Restriction

This diet is prescribed by your doctor as part of your care.

**What is considered a fluid?**

1. Liquids (like soup and juice)
2. Foods that become liquid at room temperature (e.g. ice-cream, fruit ice)
3. Foods that are mostly water, such as gelatin
4. Thickened fluids

Your fluid restriction is ordered in milliliters (mL). There are 30 mL in 1 ounce (oz.) of fluid. For example: 240 mL = 8oz. (1 cup)

**How many mL of fluid are in foods and drinks?**

- Non-dairy creamer 10 mL
- Ice cream (4oz) 50 mL
- Gelatin (4oz.) 105 mL
- Juice (4oz) 120 mL
- Ginger Ale (8 oz./12oz) 240 mL /360 mL
- Milk (4 oz./8 oz.) 120 mL /240 mL
- Soup (5oz) 150 mL
- Hot beverages (6 oz./8 oz.) 180 mL/240 mL
- Lactose-free oral supplement (such as Ensure®) 240 mL (see container for other supplements)
- Fruit ice (4 oz.) 120 mL
- Crushed Ice (1 cup/8oz.) 120 mL

**How much fluid do I get with each meal while I am in the hospital?**

**Why don’t I get all of my fluid with my meals in the hospital?**

The remaining fluid prescribed will be provided by nursing to help you take your medications.
