NewYork-Presbyterian Hospital is the largest, not-for-profit, non-sectarian hospital in New York. With more than 2600 beds, it provides state-of-the art inpatient, ambulatory, and preventive care in all areas of medicine at seven major centers: Weill Cornell Medical Center, Columbia University Medical Center, Morgan Stanley Children’s Hospital, Phyllis and David Komansky Center for Children’s Health, Lower Manhattan Hospital, The Allen Hospital, and Westchester Division.

As one of the largest and most comprehensive healthcare institutions in the world, NewYork-Presbyterian Hospital is committed to excellence in patient care, research, education, and community service. It ranks sixth on the U.S. News & World Report’s guide to Best Hospitals. This academic medical center has affiliations with two of the nation’s leading medical colleges: Weill Cornell Medical College and Columbia University College of Physicians and Surgeons.

NewYork-Presbyterian Hospital ranks 22nd in cancer care on the U.S. News & World Report’s guide to America’s Best Hospitals with services in hematologic malignancies, solid tumors, and stem cell transplantation. In addition, the Herbert Irving Comprehensive Cancer Center is one of 68 National Cancer Institute (NCI) Designated Cancer Centers. The NCI designation recognizes “world-class, state-of-the-art programs in multidisciplinary cancer research.”

At NewYork-Presbyterian Hospital we aim to provide PGY2 oncology pharmacy residents with the most comprehensive and advanced training possible. With our dedicated clinical specialists—including clinical pharmacists and world-renowned physicians—we ensure that our residents graduate from the program as competent and independent practitioners.

Program Overview

The NewYork-Presbyterian Hospital (NYP) PGY2 residency program in Hematology/Oncology is a full-time post-graduate training program for practitioners who desire to advance their knowledge and skills in hematology/oncology pharmacotherapy. Our program is committed to providing residents with the knowledge and skills necessary to become a capable pharmacy practitioner. This involves intensive training in a wide variety of practice settings with a diverse patient population that NYP is uniquely capable of providing. The program is flexible and focuses on the goals of the resident, but is intended to provide a well-rounded clinical, research, and teaching experience.
