ML-25

TO: Chief Executive Officers (New York State)

FROM: Kenneth E. Raske, President 

RE: DOH Commissioner Announces \$1.2 Billion in Capital Funding Awards to Support Health Care Delivery System Transformation

At a press conference today at GNYHA's offices, New York State Department of Health (DOH) Commissioner Howard Zucker, MD, announced \$1.2 billion in awards to hospitals and other providers under the State's Capital Restructuring Financing Program.

A list of awards is attached. I truly hope your expectations were realized.

At the press conference, I thanked Governor Andrew Cuomo for his leadership and steadfast support of New York's health care community. GNYHA also thanks the State Legislature for helping to make these vital funds available.

The capital awards are an important complement to the Delivery System Reform Incentive Payment (DSRIP) program—which has no capital component—and will enable hospitals to transform their care delivery models and provide better, more efficient patient care via projects that will improve infrastructure, promote integrated health systems, and expand primary care capacity.

GNYHA long and strongly advocated for the capital funds announced today, but we recognize that additional capital investments are required to not only support delivery system transformation, but also to facilitate the adoption of struggling safety net hospitals by financially stronger hospital systems. We will continue to aggressively advocate in Albany for an increase, and expansion over multiple years, of the \$195 million in capital funding in Governor Cuomo's proposed budget.

Please contact Elisabeth Wynn at wynn@gnyha.org or 212-259-0719 if you have any questions.
