Your Health Care Proxy and Living Will

Sometimes, because of illness or injury, patients may be unable to talk to their doctor and make decisions about their treatment. You may want to plan in advance so that your wishes about treatment will be followed if you become unable — for a short or long period — to decide for yourself. In New York State, individuals have the right to appoint someone they trust to decide about treatment for them if they become unable to do so. This appointed person is called a Health Care Agent.

The best way to protect your treatment wishes and concerns is to appoint a Health Care Agent and complete the Health Care Proxy form. This form is included in Your Rights as a Hospital Patient booklet in the pocket of this Guide. If you do not have someone to appoint as your Health Care Agent, or you do not want to appoint someone, you can also give written instructions about your specific treatment desires in advance. These written instructions are called a Living Will.

The Patient Advance Directive Policy provides, among other things, that the Hospital will follow any advance directive, such as a Health Care Proxy or Living Will, which complies with New York State law provided that you give a signed copy of any such advance directive to the Hospital. If you have any problems, questions, or concerns regarding your stay, please notify Patient Services Administration at (212) 305-5904.

Organ Donation

Should you wish to consider organ donation and enroll in the New York State Donate Life Registry, you may do so by calling the New York State Organ and Tissue Donor Registry toll-free at (866) NYDONOR or (866) 693-6667. You may also enroll through the New York State Department of Health website at www.health.state.ny.us/professionals/patients/donation/organ.
What to Expect
Admitting Process
The Admitting Department is located in the Milstein Hospital Building, first floor, room 124. The Department’s telephone number is (212) 305-7091.

Please talk to your doctor about any special steps that you must take before your admission to the Hospital or prior to surgery.

The night before your admission, a member of the nursing staff will call you to tell you when to arrive and where to go when you arrive. On the day of admission, it is important that you arrive on time.

Preparing for Surgery
If you are having surgery, the evening before your scheduled surgery a nurse will call to tell you where to go and at what time you should arrive. The nurse will also tell you when you can no longer eat or drink, and ask you some general health questions.

If you have developed any symptoms, particularly respiratory symptoms, such as a cough, sneezing, or runny nose, please notify the nurse during the phone call. You should also let your doctor’s office know. If necessary, your surgery may have to be postponed.

Voluntary Blood Donations
NewYork-Presbyterian Hospital relies largely on voluntary blood donations from carefully screened blood donors. Donated blood undergoes extensive testing for safety. Whenever possible, we encourage autologous blood donation, which means that you donate your own blood for a transfusion that you may need at a later date. If this procedure is not possible because of your medical status, family members may donate blood for your use if they have the same blood type. This is called a directed blood donation.
Your doctor will tell you if and when you may need a transfusion and will discuss the criteria for blood donation with you. Donated blood must be used within a short time period. There is no fee for directed donation. There is a fee for processing, testing, and handling autologous blood donation.

Please call the New York Blood Donor Center at (800) 933-2566, and they will direct you to the nearest donor center. The donated blood will then be sent to NewYork-Presbyterian/Columbia.
Important Patient Safety Information
At NewYork-Presbyterian Hospital, we want to work closely with you to make your care safe. By getting involved in your care, asking questions, and speaking up, you will help us achieve optimum outcomes.

Be Actively Involved in Your Care
Your health care team will keep you informed about your care. They will listen to your concerns, answer your questions, and explain your treatment plan. If English is not your primary language and you need assistance, we will provide an interpreter for you. When you are discharged, you will receive written instructions to take home.

Ask Questions and Speak Up
• Actively participate in decisions about your treatment.
• Ask questions about your care and treatment.
• Ask questions about your discharge instructions.
• Tell us if you do not understand what we are saying to you.
• Ask for an interpreter if you do not understand English.

Keep Your Health Care Team Informed
• Share your medical history with your health care team.
• Tell us about your medical problems and prior surgeries.
• Tell us if you have any allergies.

Know Your Medications
When you are in the Hospital, ask about all medications you are given and why they have been prescribed for you.

Expect Staff to Check and Recheck Your Identification Band
Wear your Hospital identification (ID) band at all times while you are in the Hospital. Our staff will review the information on your Hospital ID band before giving you any medications, before tests, procedures, and X-rays, or when giving you your food tray. If your ID band comes off or is unreadable, ask us to replace it.
Help Prevent Falls
For your protection, we strive to make every effort to prevent falls during your Hospital stay. This includes placing your call button within reach, helping you get out of bed, and taking you for walks on the nursing unit. If you are at risk for falling, we will take extra precautions. You can help prevent falls by:
• calling for a staff member if you need help getting out of bed or a chair
• keeping your call button close to you; let us know if you cannot reach it
• wearing Hospital-provided non-skid socks or shoes when you walk around
• making sure the brakes are locked before getting in or out of a wheelchair
• if you wear glasses, making sure you have them on before you get out of bed
• following the staff’s instructions to prevent falls
Preventing Infections
Preventing infections is one of the most important goals at the Hospital. While not every infection is preventable, many can be prevented by taking certain precautions.

Practice Hand Hygiene
One of the best ways to prevent infections is hand hygiene. Hand hygiene refers to cleaning hands with soap and water or with an alcohol-based hand sanitizer. Alcohol-based products are an easy way to perform hand hygiene. Throughout the Hospital, you will see Purell® dispensers and bottles in hallways and patient rooms.

Your health care team will clean their hands before and after providing care to prevent the spread of infection. They are required to use Purell® or wash their hands with soap and water. If you’re not sure that your health care provider cleaned his or her hands, please ask the provider to do so before examining you or performing a procedure. They will be glad you reminded them.

Follow Visitor Guidelines
We want you to help prevent the spread of infection too. If your family members or friends have an infection, such as a cold, cough, fever, or rash, please ask them not to visit until they are better. Ask your visitors to clean their hands with Purell® before they come into your room.
**Interpreter Services**
Interpreters for foreign languages and sign language can be arranged by a member of our staff free of charge prior to your admission. Indicate to a member of our staff if you will need this service, and an interpreter will be arranged for you. Equipment for patients who are hearing impaired is also available.

**Services for the Visually Impaired**
If you are visually impaired, our staff will assist you with forms. The Patient Bill of Rights and various selected forms are available in Braille through Patient Services Administration.
Billing
Your Hospital bill will reflect all of the Hospital services you received during your stay. Charges fall into two categories:

• a basic daily rate, which includes your room, meals, nursing care, and housekeeping

• charges for special services or procedures, which include the operating room, recovery room, and/or items your doctor orders for you, such as X-rays or laboratory tests

For information about charges for telephone and television services, see pages 24 and 25.

You may receive separate bills from physicians who bill independently for their services. You may also receive bills from physicians who did not see you in person, but who provided professional services related to diagnosing and interpreting test results while you were a patient. These include pathologists, radiologists, and other specialists. If you have questions about their bills, please call the number printed on the statement you receive from them.
Insurance

All insured patients should familiarize themselves with the terms of their insurance coverage, including commercial insurance carriers, HMOs, Medicare, and Medicaid. This will help you understand which Hospital services are covered and what your responsibilities are, if any. You should also bring copies of your insurance cards.

The Hospital is responsible for submitting bills to your insurance company for Hospital services and will do everything it can to expedite your claim. You may receive a bill from the Hospital for any deductible/copay/coinsurance or non-covered items, as indicated on the explanation of benefits received from your insurance company.

If you have any questions regarding your insurance coverage, please call (212) 632-7440 or the telephone number indicated on your billing statement.
Notice to Uninsured or Underinsured Patients  (866) 252-0101
If you are uninsured, you will be responsible for payment of your
Hospital bill unless you are eligible for and receive coverage from
other payment sources. NewYork-Presbyterian Hospital offers
assistance to patients who do not have insurance or are underinsured
to determine whether there may be other sources of payment, such
as Medicaid, Medicare 1011, Workers’ Compensation, No-Fault,
COBRA benefits, or Charity Care, available to cover Hospital services
rendered here.

patients who receive health care services at our Hospital and are
in need of financial aid, regardless of age, gender, race, national

Presbyterian and believe you cannot afford to pay, the Hospital has
a charity care/financial aid policy that can assist qualified patients.
